TEACHING EQUIPMENT

- A classroom for cooking classes
- This classroom is used by students in 7th grade
- They mostly cook or bake simple things like cakes, sauces, spreads etc.
- Cooking lessons are every two weeks

OTHER CLASSROOMS

Chemistry

- We have chemistry from 8th grade, 1 or 2 times a week.
- We learn many different things every year, but we often do experiments or play some kinds of games related to the subject

Physics

- We have physics from 6th grade, 2 times a week
- We sometimes do experiments and we go to exhibitions

“AMÉBA”

- The whole name of it is a “technical and biology science center
- It’s the newest building in our school, and it has 3 classrooms (physics, chemistry and a mixed one for all subjects)
- There’s also an outdoor space, which includes seating areas, a weather station etc., so we often have classes outside when the weather is nice
